

WGIC26 – World Green Infrastructure Congress

Barcelona & Lleida, Spain

Shaping the Future of Green Infrastructure in Cities

October 27-30, 2026

Cities Are Facing Unprecedented Environmental Challenges

Cities around the world are facing major environmental pressures:

- Climate change
- Urban flooding
- Heat islands
- Biodiversity loss

A Rapidly Expanding **Green Infrastructure Market**

Key facts:

- The European Green Deal mobilizes hundreds of billions of euros in climate investment
- The EU Biodiversity Strategy 2030 promotes nature-based solutions
- Cities across Europe are investing heavily in urban resilience

Example investment areas:

- sustainable urban drainage systems
- green roofs and walls
- urban biodiversity infrastructure
- climate-adapted public spaces

A Global Platform for Green Infrastructure

The World Green Infrastructure Congress brings together:

- leading researchers
- city governments
- engineering firms
- environmental agencies
- infrastructure companies

Key facts:

- international participation
- attendees from more than 30 countries

A Highly Specialized International Audience

Typical audience distribution:

- 45–55% academia and research
- 20–30% private sector
- 15–20% public sector

Key sectors represented:

- engineering
- construction
- urban planning
- landscape architecture
- water management

Who Attends WGIC

Participants typically include:

- city planners
- environmental agencies
- infrastructure engineers
- architects and landscape architects
- researchers and policy experts
- urban technology providers

Why you cannot miss Barcelona WGIC26

- Gaudi's Year
- Barcelona World Architecture Capital

3 Interactive Workshops

Global South: Designing the green infrastructures of the Global South through a genuine partnership based on mutual learning, co-creation of knowledge, and equitable benefit sharing.

Health and Well being: Connecting health and green infrastructure sectors. Designing to connect with nature (biophilia criteria) and avoiding the negative impact of the lack of nature.

Post conflict and Disaster Recovery: How can green infrastructure contribute to social and environmental recovery after crisis situations due to conflicts or disasters.

Barcelona: A Living Laboratory for Sustainable Cities

Barcelona is recognized globally for leadership in:

- urban planning
- sustainable mobility
- climate adaptation strategies
- nature-based solutions

Key initiatives include:

- Superblocks (Superilles)
- Barcelona Nature Plan 2030
- Blue-green infrastructure initiatives

Why Companies Sponsor **WGIC**

Benefits:

- Positioning as a leader in sustainable infrastructure
- Access to international decision-makers
- Opportunity to present technologies and projects
- Business development and partnerships

Multiple Opportunities for Interaction

Sponsors gain visibility through:

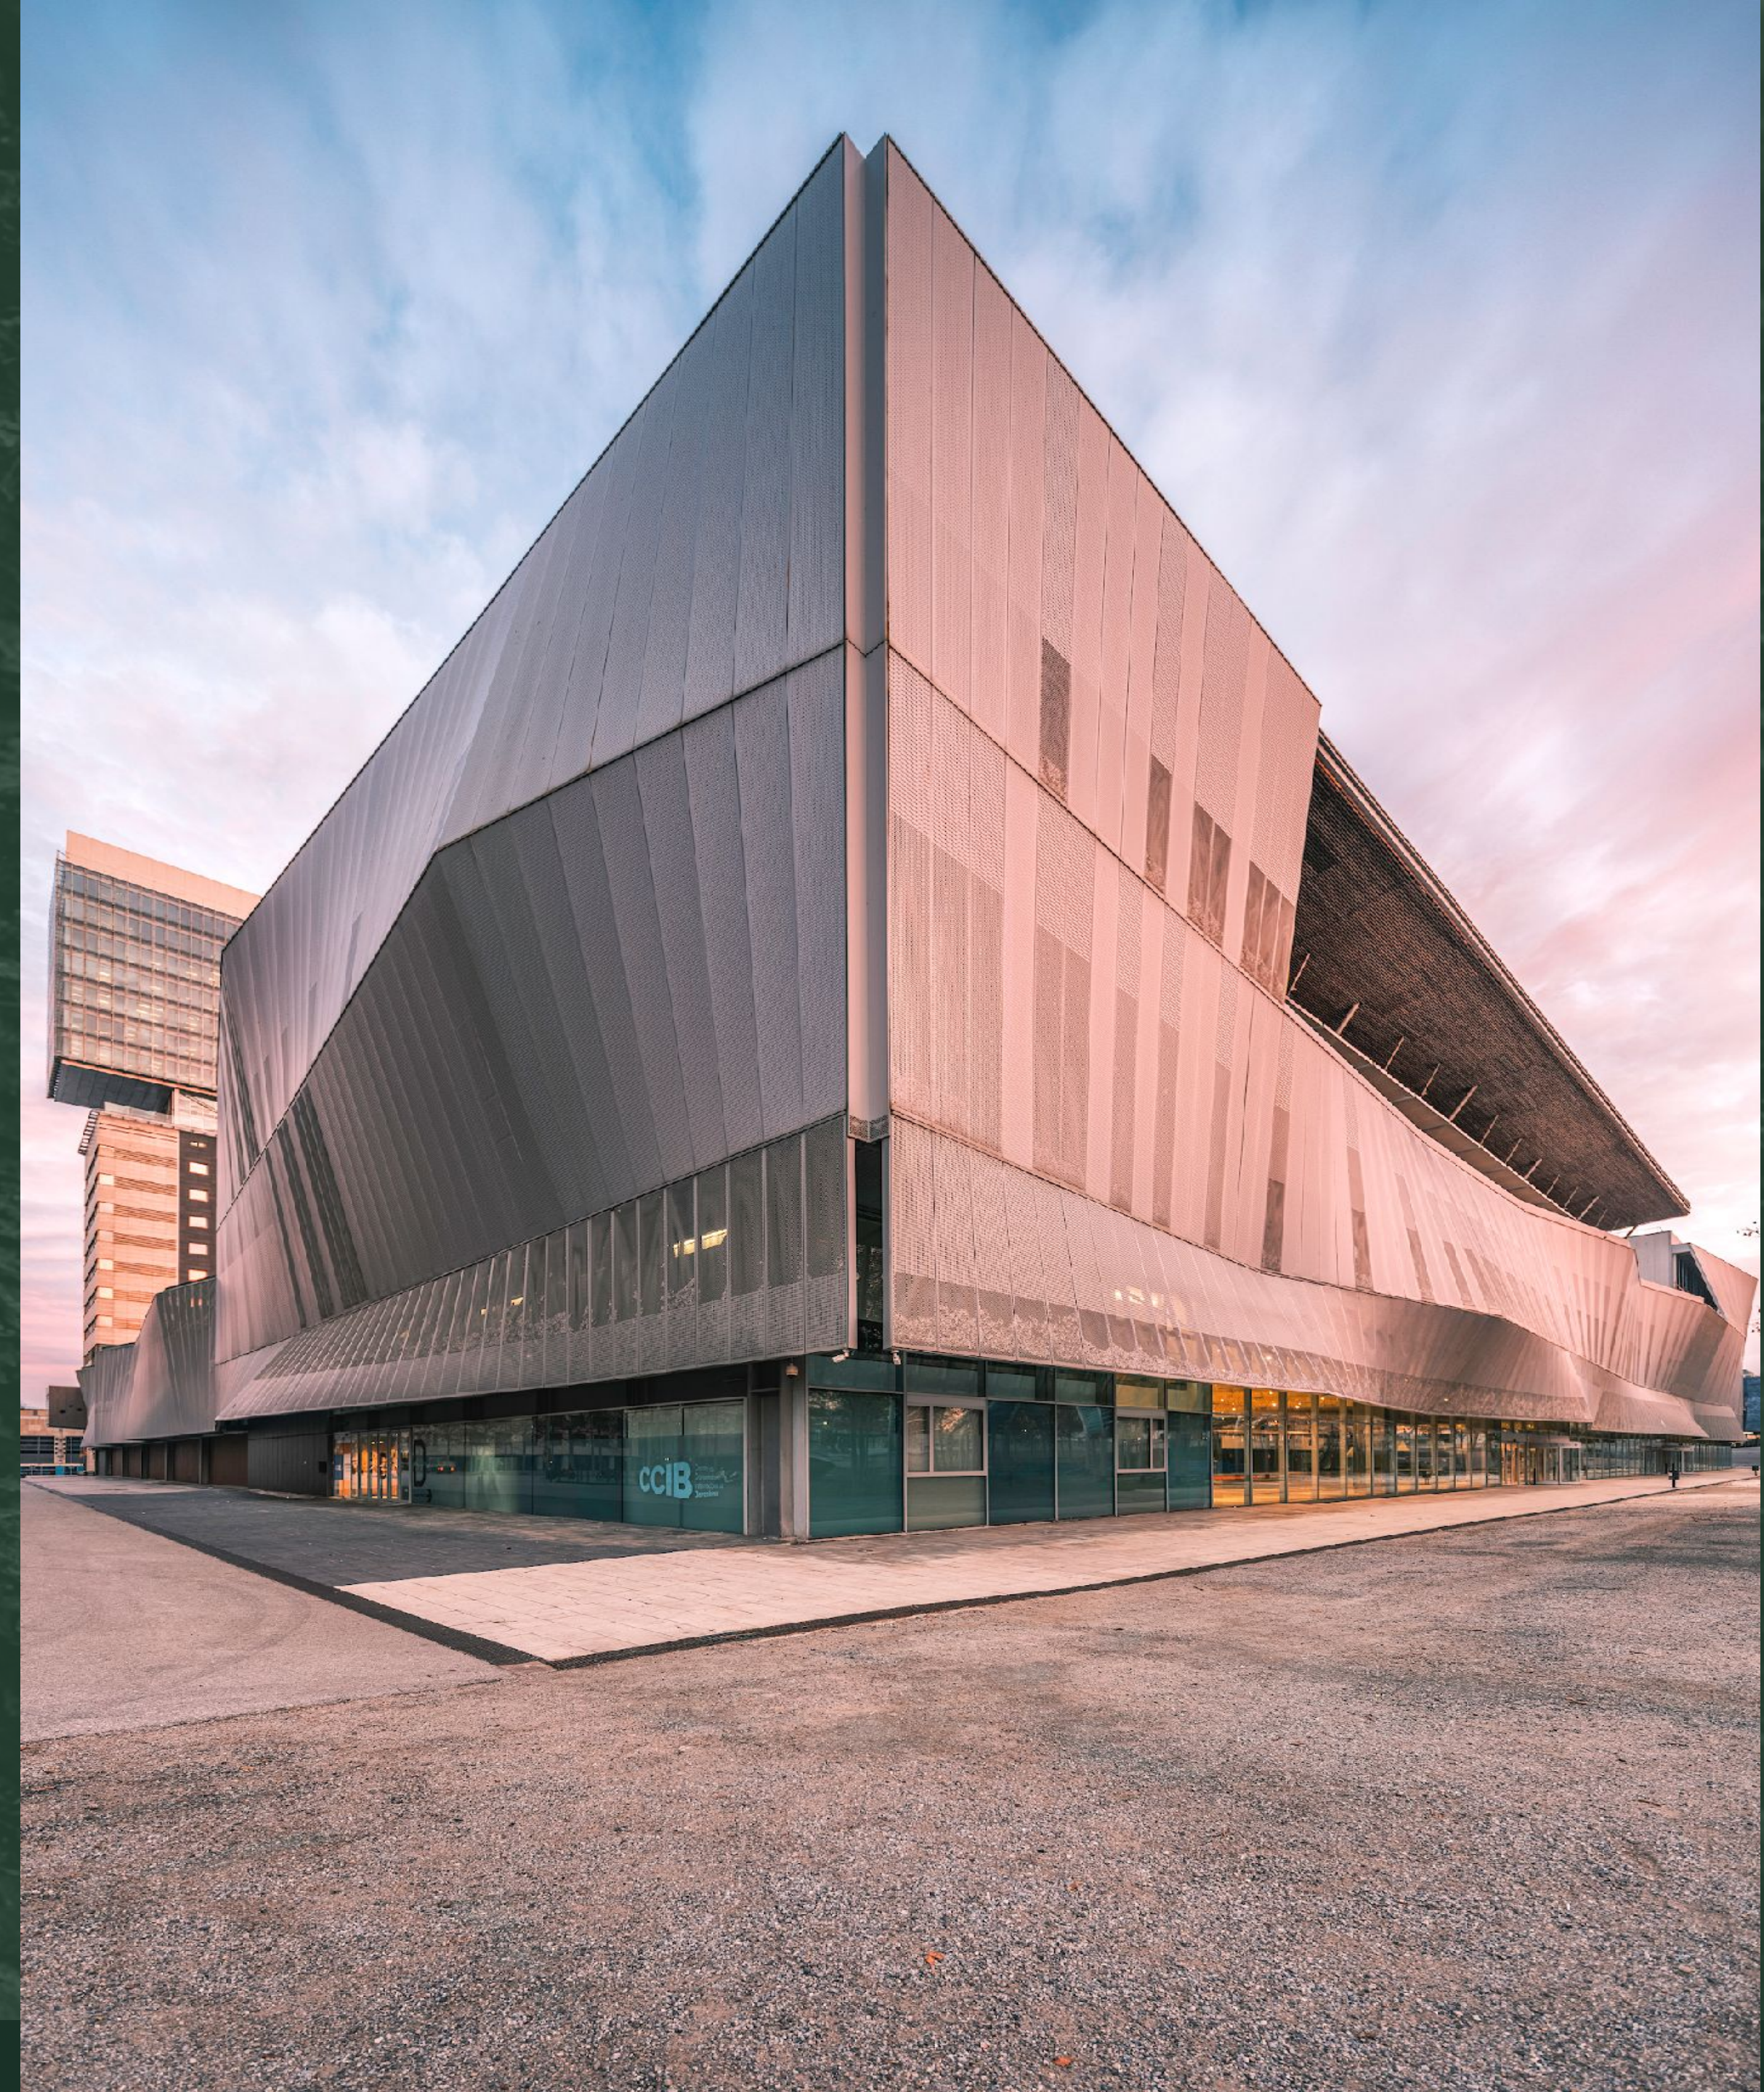

- plenary sessions
- sponsored panels
- exhibition booths
- networking receptions
- gala dinner
- technical visits

Brand Visibility for Sponsors

Examples:

- stage branding
- exhibition presence
- program branding
- website promotion
- digital marketing exposure

Sponsorship Packages

CATEGORY	DIAMOND (EXCLUSIVE)	EMERALD	PLATINUM	GOLD
Investment	€30.000	€15.000	€10.000	€6.000
