New Deadline
31 May 2026

Call for Papers & Projects deadline extended

We are pleased to announce that the Call for Papers & Projects deadline has been extended until 31 May 2026.

Researchers, practitioners, designers, policymakers, and industry professionals now have additional time to submit their contributions to the World Green Infrastructure Congress 2026 (WGIC26).

WGIC26 welcomes original research, case studies, and innovative applications related to green infrastructure and nature-based solutions in urban environments.

All submissions will undergo a rigorous peer-review process led by the Scientific Committee, with accepted papers to be included in the official congress proceedings.

This is an opportunity to contribute to the global dialogue on building more resilient, sustainable, and healthier cities.

New submission deadline: 31 May 2026

Discover the submission guidelines and access the platform [here](#).

Confirmed speakers at WGIC26

WGIC26 continues to bring together leading international voices shaping the future of green infrastructure, urban sustainability, architecture, and nature-based solutions.

The confirmed speakers to date include:

Marcos Ros

Architect, academic, and Member of the European Parliament

Salvador Rueda

Founder of the Urban and Territorial Ecology Foundation (FEUT) and creator of the Superblocks model

Alberto T. Estévez

Founder of ESARQ-UIC Barcelona and pioneer in biodigital architecture

Vicente Guallart

Founder of IAAC and Co-Founder of Urbanitree

Enric Batlle

Founding Partner of Batlleiroig

Wendy Y. Chen

Professor at the University of Hong Kong, specialising in urban green-blue infrastructure

Dorothy Aseyo

Executive Director at The Green Belt Movement

Together, they reflect the multidisciplinary and international character of WGIC26, connecting policy, research, design, ecology, and innovation.

More speakers and programme updates will be announced soon [here](#).

Barcelona, World Capital of Architecture 2026

In 2026, Barcelona will officially become the World Capital of Architecture, recognising the city's global leadership in architecture, urbanism, and sustainable urban transformation.

This designation highlights Barcelona's unique capacity to connect design, innovation, public space, and environmental responsibility, reinforcing its position as an international reference for the cities of the future.

Within this context, WGIC26 Barcelona – Lleida will contribute to the global conversation on how green infrastructure and nature-based solutions can help create more resilient, liveable, and healthier urban environments.
